Foreword

The Calendaring and Scheduling Consortium (“CalConnect”) is a global non-profit organization with the aim to facilitate interoperability of technologies across user-centric systems and applications.

CalConnect works closely with liaison partners including international organizations such as ISO, OASIS and M3AAWG.

The procedures used to develop this document and those intended for its further maintenance are described in the CalConnect Directives.

In particular the different approval criteria needed for the different types of CalConnect documents should be noted. This document was drafted in accordance with the editorial rules of the CalConnect Directives.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CalConnect shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the CalConnect list of patent declarations received (see www.calconnect.com/patents).

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

This document was prepared by Technical Committee *CALSPAM*.

Introduction

Introduction goes here.

Calendar operator practices — Report template

1. Scope

Scope.

2. Normative references

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

CC 18011:2018, CalConnect. *Date and time — Explicit representation*. 1st edition. September 18, 2018. <https://standards.calconnect.org/csd/cc-18011.xml>.

ISO 8601-1, International Organization for Standardization. *Date and time — Representations for information interchange — Part 1: Basic rules*. 1st edition. Geneva. <https://www.iso.org/standard/70907.html>.

3. Terms, definitions, symbols and abbreviated terms

For the purposes of this document, the terms and definitions given in [CC 18011:2018](#) and the following apply.

3.1. Terms and definitions

3.1.1. repeat rule

consists of a set of eligible time intervals ([\[term-eti\]](#)) and selection rules ([Clause 3.1.2](#)) that allows computation of a set of matching instants ([\[term-matching-instants\]](#))

3.1.2. selection rule

rule specifying restrictions on the value of a *time scale component* ([ISO 8601-1, Clause 3.1.3.9](#))

3.2. Symbols

3.2.1. Symbols and abbreviated terms

Representations specified in this document make use of symbols given in [CC 18011:2018](#) and the following.

3.2.2. Symbols and abbreviated terms

selection	representation for a set of selection rules as determined in [selection-general]
-----------	--

3.2.3. Symbols and abbreviated terms

These symbols are used to represent characters in the date and time representations. They are used in representations only, and are replaced by one or more characters, as described, in expressions:

:2019

!	indicates that the token following this symbol is optional (may be omitted)
i	a positive integer
n	a positive integer or value, may be left absent to signify an unbounded value

4. Content
